(INFORMAZIONI AGGIORNATE AL 3 GIUGNO 2010)

Allegato alla Rivista "Sicurezza del Volo" n° 282/2010 - Adattamento e realizzazione grafica: Annamaria Maccarini

(1) Adopted but not implemented.
 (2) Not applicable to military aircraft.
 (3) Before crossing international FIR boundaries a position report is required for aircraft entering Italian airspace.
 (4) VMC minima are provided for guidance to pilots with regard to contingency situations which include reference to VMC (Communication failure)
 (5) A lower flight visibility, down to 1500m, is allowed for aircraft (other than helicopters) operating at a speed of 140kt or less. Helicopters may operate with a visibility of less than 1500m, but not less than 800m, provided they are manoeuvred at a speed allowing observation of other traffic or obstacles in sufficient time to avoid collision.
 (6) Applicable only to aeroplanes, helicopters and those unmanned free balloons as in AIP - Italia GEN 1.5.
 (7) Unless otherwise specified in AIP- Italia ENR 2.
 (8) Provision of the air traffic control service includes also the provision of the flight information service and the alerting service. Alerting service is also provided to non controlled flights, in accordance with limitations prescribed in AIP-Italia ENR 1.1, Para 5.
 (9) Within ATZ of those aerodromes where ATC service is provided.
 (10) Required within ATZ of those aerodromes where ATC service is provided.
 (11) Required within ATZ of those aerodromes where ATC service or AFIS is provided.
